

## **Change your life -- own a Caribbean magazine.**

*Yes, REAL jobs exist here.*

If you have paid your dues in graphic design and/or journalism and have a head for business I can teach you the publishing part (it's not that hard). Stop working for other people and work for yourself on a gorgeous, safe tropical island no less. You know you've thought about it!

For sale is a fun, successful lifestyle magazine serving two thriving resort islands, publishing five issues annually and well positioned for continuing success. Expanded distribution base, strong community support, excellent reputation, decent financials, year-on-year net income increases, 10+ years in the market, loyal supporting vendors, and a small, dedicated staff. And not least of all: excellent, transparent accounting records.

Tired of the corporate rat race, not enough vacation time, and having your hours set by someone else? Feel like you're missing out on Real Life? Why wait until you're 65 to do what you really want? (Or, ok, it CAN be run remotely if you choose--and all your trips to the Caribe will be tax-deductible. Still not bad.)

185k--owner motivated to sell (new business opportunity) but willing to consult for an extended period. Some owner financing available.

You won't make a million dollars in this market but you might have a really fun life.

NDA required; contact with interest and/or questions. Serious inquiries only please.
